BECAUSE IT ISN'T HARMLESS

BECAUSE THEY AREN'T ALL GOOD FOR ALL OF US

BECAUSE THEY HAVE TO BE USED IN THE RIGHT WAY

Medicine
NOT TO BE TAKEN LIGHTLY

Using medicine in the right way is vitally important. Medicine is helpful when it's necessary; otherwise, it can endanger your health and cause unexpected adverse reactions that could do you a lot of harm.
Always check with your doctor or chemist for the right medicine for you.
Look after your health.
